

La función de pérdida es de suma importancia cuando se desea imputar valores en series temporales (Balcilar et al., 2017; Gupta & Lam, 1996; Terven et al., 2023).

Otra característica importante es aprovechar la asociación temporal generada por el mecanismo propio (Smaragdis et al., 2011; Wibawa et al., 2022)

Existe una gran variedad de fuentes de información (Bastar, 2012; Lerma González, 2009)

(Bahdanau et al., 2014; Benidis et al., 2022; Elharrouss et al., 2025; Mojtahedi et al., 2025; Sutskever et al., 2014; Terven et al., 2023)
